

18:00 - 18:10

The origin of Bílé Karpaty meadows from the pedoanthracological perspective - Jan Novák, Michal Hájek, Jan Roleček

19:45 Conference dinner on Limoges city

Friday, November 3**09:00 Session Landscapes from pedoanthracological approach (2)**

Chairmen Jean-Paul Métailié and Anna Maria Mercuri

9:00 - 9:30

Assessment of the forest history of the Lorraine Plateau: the case of Quercus versus Fagus dynamics documented by pedoanthracology - Thomas Feiss, Vincent Robin, Delphine Aran, Thierry Paul, Jean-Luc Dupouey

9:30 - 10:00

The Holocene woodland history of sandstone areas of North Bohemia, Czech Republic: Comparison pedoanthracological and pollen records - Jan Novák, Petr Pokorný, Jiří Svoboda, Petr Šídá

10:00 - 10:30

Pedoanthracological reconstruction of forest history of a strict nature reserve and its applications to territories management - Adèle Destanne de Bernis, Brigitte Talon

10:30 - 11:00 Coffee break

11:00 - 11:30

Fire on the mountain. Slash, and, burn, wild fire and flaming - Schulz, Erhard

11:30 - 12:00

Late Holocene vegetation dynamics inferred by soil charcoals of two mountains located in the Northern Apennines (Italy) : Monte Cimone and Corno alle Scale - Alessandra Benatti, Marie Bal, Philippe Allée, Giovanna Bosi, Anna Maria Mercuri

12:00 - 12:30

*Paleobiogeography of *Abies pinsapo* in southern Spain through the pedoanthracological analysis : new contributions for the management of an endangered relict species - José Antonio Olmedo-Cobo, Raquel Cunill-Artigas, José Gómez-Zotano*

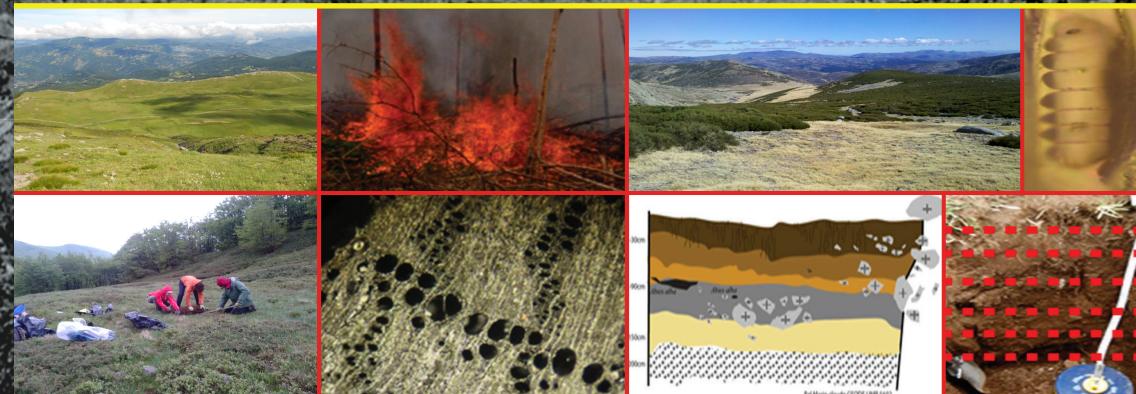

12:30 lunch (on site)

13:30 General discussion

Concept: M. D. - Imp. FISH

Program**The memory of the soils
and the wood charcoals**

*the contribution of the pedoanthracology
to the development of territories*

**Call for communication - First announcement****November, 2^d and 3rd, 2017**

of the University of Limoges, France

Program of the 3rd IWP - 2 and 3 November 2017

Faculty of Letters and Human Sciences of the University of Limoges
39E rue Camille Guérin, 87031 Limoges Cedex, France.

Thursday, November 2

9:00 am - Registration - coffee

9:30 - 10:00 Opening welcome **Marie Bal**, University of Limoges and **Vincent Robin**, University of Lorraine

Invited speaker **Oliver Nelle**, State Office for Cultural Heritage Baden-Wuerttemberg
Pedoanthracology and paleoecological retro- and perspectives

10:00 - Session Methodological approaches in pedoanthracology

Chair woman **Brigitte Talon**

10:00 - 10:30

Origins of Western European nutrient-poor grasslands investigated from local to large scales through soil charcoal analyses - **Vincent Robin, Oliver Nelle, Brigitte Talon, Peter Poschlod, Dominique Schwartz, Marie Bal, Philippe Allée, Jean-Louis Vernet, Thierry Dutoit**

10:30 - 11:00

Coupling soil charcoal analysis and near infrared spectroscopy of soil organic matter to reconstruct the environmental dynamic of the Vosges du Nord (France) - **Damien Ertlen, Vincent Robin, Benjamin Keller, Dominique Schwartz**

11:00 - 11:30

Update the pedoanthracological methodology: Discussion from the recent insights to new interactive tools - **Mélanie Saulnier, Raquel Cunill-Artigas, Alessandra Benatti and Salvia Garcia-Alvarez**

11:30 - 12:00

Origin of charcoal vitrification: new insights on seasonality of natural fire regime and/or human practices using fire ? - **Vanessa Py-Saragaglia, Léonel Fouedjeu Foumou, Mélanie Saulnier, Raquel Cunill i Artigas and Sandrine Buscaino**

12:00 - 12:30

How can pedoanthracology help to improve resilience to global change in Central Portugal Mountain areas ? - **António J. Dinis Ferreira, Anne-Karine Boulet, Inês A. Leitão, Carla S. S. Ferreira**

12:30 lunch on site

14:00 Session Landscapes from pedoanthracological approach (1)

Chairmen **Vincent Robin** and **Marie Bal**

14:00 - 14:30

*New palaeoenvironmental data of *Abies alba* evolution in the Montseny massif, the southernmost populations of the Iberian Peninsula* - **Raquel Cunill Artigas, Albert Pèlachs Mañosa, Joan Manuel Soriano López, Ramon Pérez Obiol, Jordi Nadal Tersa, Marc Sanchez Morales**

14:30 - 15:00

Charcoal analysis at the Pohansko. Woodland vegetation and fuel exploitation at the early medieval central settlements (SE Czech Republic) - **Petr Kočář, Romana Kočárová, Jan Novák**

15:00 - 15:30

Pedoanthracology reflects long-term dynamics of vegetal cover at Mirambel forest (Corrèze, France) - **Salvia García Álvarez, Marie Bal, Philippe Allée**

15:30 - 16:00

Two historical forest clearing phases under an isohypse linear lynchet landscape (Goldbach, Haut-Rhin, France) - **Dominique Schwartz, Vincent Robin, Pierre Adam, Philippe Schaeffer, Anne Gebhart, Daniele Dapiaggi, Claire Stevenel, Maxime Thiss, Martine Trautmann, Damien Ertlen**

16:00 Coffee break

16:30 Posters session - Chairwoman **Salvia Garcia Alvarez**

16:30 - 16:40

First pedoanthracological analyses in the Aramo Range (Asturian Central Massif, Cantabrian Mountains, NW Spain) : a new approach to the evolution of subalpine pastures and landscape - **Salvador Beato Bergua, Miguel Ángel Poblete Piedrabuena, José Luis Marino Alfonso, Jean-Paul Métailié, Vanessa Py-Saragaglia, Raquel Cunill Artigas, Mélanie Saulnier**

16:40 - 17:50

Origin and Formation of the French Guiana Dark Soils : an Anthracological Approach - **Stéphanie Bodin, Jean-François Molino and Laurent Bremond and LongTime Project Team**

17:50 - 18:00

Cooked pedological aggregates and soil charcoal as markers of fires in an ancient agro-sylvo-pastoral context : Preliminary results of pedoanthracological study in the forest massif of Châtillon-sur-Seine (Burgundy) - **Clément Menbrivès, Alain Giosa, Thomas Delbey, Kaare Lund Rasmussen, Michelle Elliott, Christophe Petit**
