

SCIENTIFIC PROGRAMME

WEDNESDAY, March 29

16H – 18H : Réunion du Collège des Neurochirurgiens français (Meeting of the French Neurological Surgeons College)
18H – 20H : Registration
20H30 : Welcome buffet

THURSDAY, March 30

8H30 – 13H : Miscellaneous : Spine and spinal cord

8H30 – 10H30 : First session (Chairmen : *Pr Y. Shulev – Pr R. Assaker*)

8H30 – 8H55 : Lecture : The surgical management of congenital disorders of the craniocervical junction - *G. Lot*

8H55 – 9H15 : Lecture : Cervical disc disease : arthroplasty versus fusion ? Indications, surgical strategy and results. *R. Assaker*

9H15 - 10H30 : Free communications

11H – 13H : Second session (Chairmen : *Dr N.A. Konovalov – Pr R. Robert*)

Round table : Spinal cord injury : present and future (clinics and research).

Coordinator : *M. Tadié*

13H – 14H : **Assemblée Générale de la SFNC** (General Assembly of the French Society of Neurosurgery)

14H – 18H30 : Stereotactic and functional neurosurgery

14H – 16H30 : Functional neuroimaging, movement disorders, epilepsy surgery (Chairmen: *Pr V. Kornienko – Pr V. Shabalov – Pr S. Blond – Pr E. Cabanis*) :

14H – 14H20 : Lecture: From the visual pathways to « functional tractography » with 3T MR - *E. Cabanis, MT Ibazizen, JL Stevenart, L Bellinger, R van Effenterre*

14H20 – 14H35 : Lecture: The surgical management of non Parkinson abnormal movements – *S. Blond*

14H35 - 15H : Lecture: Temporal lobe epilepsies and SEEG : current strategies - *M. Guénot*

15H – 16H30 : Free communications

17H – 18H30 : Chronic pain, spasticity. New perspectives in psychosurgery : compulsive disorders, severe depressive status (Chairmen : *Pr S. Medvedev – Pr E. Emery*)

17H – 17H15 : Lecture : Possible neurophysiological basis of positive effect of stereotactic operation in obsessive compulsive disorders – *S. Medvedev*

17H15 – 17H40 : Lecture : The present status of psychosurgery : technics and ethics – *S. Blond*

17H40 – 18H30 : Free communications

FRIDAY, March 31

8H30 – 13H : Neurooncology

8H30 – 10H30 : Round Table : The management of adult craniopharyngiomas (Chairmen : *Pr A.N. Konovalov – Pr R. Van Effenterre*)

11H – 13H : Midline tumors (*Pr V. Olyushin - Pr P. Menei*)

11H – 11H25 : Lecture : The management of pineal region tumors – *A.N.Konovalov, D. Pitskhelauri*

11H25 – 11H45 : Lecture : The surgical treatment of pituitary adenomas – *P.Kalinin, A.M.Turkin, Ju.Trunin, A.Shkarubo, M.Kutin, S.Alexeev, D.Fomitchev, L.Astefieva*

11H45 – 13H : Free communications

14H – 18H30 : Endovascular treatment of brain vascular malformations and ischaemic disorders

14H – 16H : First session (Chairmen : *Pr D. Svistov – Pr S. Bracard*)

14H – 14H30 : The life and work of Feodor Serbinenko . A movie.
Presented by Leonid Likhtermann

14H30 – 14H55 : The French contribution to the development of endovascular interventional neuroradiology : a historical overview – *Luc Picard*

14H55 – 16H : Free communications

16H30 – 18H30 : Second session (Chairmen : *Pr S. Yakovlev – Pr P. Courtheoux*)

16H30 – 18H30 : Free communications

SATURDAY, April 1st

8H30 – 13H : Miscellaneous : Skull, Brain (*including tumors*), and other topics

8H30 – 10H30 : First session (Chairmen : *Pr A.A. Potapov – Pr J. Chazal*) :
Free communications

11H – 13H : Second session (Chairmen : *Pr A. Krivoshapkin – Pr J.M. Derlon*)

11H – 12H : Free communications

12H – 12H30 : Lecture : A parallel History of Russian and French Neurosurgery – *B.Likhterman*

12H30 – 12H45 : Lecture : The present and future of Russian-French collaboration in Neurosurgery – *J.M. Derlon*

12H45 – 13H : Concluding remarks about the Conference – *A.A. Konovalov*

3 POSTER SESSIONS
