Is Tropical Neurology Specific?	xiii		
<b>PART I</b>			
<hr/>			
<b>FUNDAMENTAL CONCEPTS</b>			
1. Methodological Challenges of Neuroepidemiological Studies in Low- and Middle-Income Countries	3	3. Climatic Factors Under the Tropics	25
FARID BOUMEDIENE, BENOÎT MARIN, AND PIERRE-MARIE PREUX		JACQUES REIS, PASCAL HANDSCHUMACHER, VALERIE S. PALMER, AND PETER S. SPENCER	
1.1 Introduction	3	3.1 Introduction	26
1.2 Study Design and Feasibility in the Field	4	3.2 A Physical Geographic Approach: The Climate and Its Characteristics	26
1.3 General Context	6	3.3 A Biogeographical Approach: How Climate's Features Determine Natural Biomes and Ecosystems	26
1.4 Difficulties in the Availability and Mobilization of Data	7	3.4 Biology: Adaptation and Acclimation to Tropical Climates	28
1.5 Study Design	8	3.5 Does the Tropical Climate Favor Pathogens and Infections in Humans?	30
1.6 Clinical and Regulatory Issues	8	3.6 Weather Events and Extreme Effects of Climate	32
1.7 Design-Specific Issues	10	3.7 A Health Geographical Approach: Case Studies of Climatic Features that Modulate Tropical Diseases	33
1.8 Valorization: Scientific and Public Health Issues	10	3.8 The "Boomerang Effect" Under the Tropics: Health Consequences of Anthropogenic Changes	35
1.9 Conclusion	11	3.9 Conclusions	36
References	11	References	36
		Further Reading	39
<b>PART II</b>			
<hr/>			
<b>TROPICAL NEUROEPIDEMIOLOGY: BETWEEN ENVIRONMENT AND GENETICS</b>			
2. Sociocultural Factors	15	4. Economic Aspects	41
PHILIPPE NUBUKPO AND CATHERINE-MARIE DUBREUIL		ACHILLE TCHALLA	
2.1 Introduction	15	4.1 Introduction	41
2.2 Tropical Neuroepidemiology and Health Anthropology: For Effective Collaboration	15	4.2 Health System Financing: Key Challenges	41
2.3 Mental Disorders and Traditional Beliefs in SSA	17	4.3 Economical Aspects Related to Chronic Neurological Diseases	42
2.4 Sociocultural Representations and Stigma in Epilepsy	18	4.4 Conclusion	45
2.5 Sociocultural Representations and Stigma in Dementia	20	References	45
2.6 Conclusion	22		
		5. Tropical Epidemiology: Nutritional Factors	47
		JEAN-CLAUDE DESPORT, PIERRE JÉSUS, AND PHILIPPE FAYEMENDY	
		5.1 Introduction	47
		5.2 The Tools for Pointing Out Malnutrition and Obesity and Their Thresholds	48
		5.3 The Main Causes of Malnutrition During Neurological Diseases and Their Treatment	49
		5.4 Nutrition and Epilepsy in Tropical Countries	51
		5.5 Nutrition and Dementia in Tropical Countries	52
		References	54

## 6. Genetics of Infections and Diseases Caused by Human Parasites Affecting the Central Nervous System

ALAIN DESSEIN, AGNÈS FLEURY, HÉLIA DESSEIN, AND SANDRINE MARQUET

6.1 Introduction	57
6.2 Neurocysticercosis	58
6.3 Toxoplasmosis	59
6.4 Cerebral Malaria	61
References	66

## PART III

### TROPICAL NEUROEPIDEMIOLOGY BY LARGE AREAS OF THE WORLD

## 7. Asia

MOHAMAD I. IDRIS AND CHONG T. TAN

7.1 Introduction	71
7.2 Stroke	72
7.3 Epilepsy	73
7.4 Headache	74
7.5 Neuroinflammation	75
7.6 Neuromuscular Disorders	76
7.7 Movement Disorders	78
7.8 Dementia	80
7.9 CNS Infections	80
7.10 Neurology Care	82
References	82

## 8. Neurologic Diseases in Tropical Oceania

JACQUES JOUBERT AND CRAIG BARNETT

8.1 Preamble	87
8.2 Tropical Australia	87
8.3 Melanesia	98
8.4 Micronesia	100
8.5 Polynesia	101
8.6 Cerebrovascular Disease in Oceania Outside Australia	102
8.7 The Future	102
Acknowledgments	102
References and Selected Reading	102

## 9. Neuroepidemiology in Latin America

CARLOS N. KETZOIAN, ABAYUBÁ PERNA, AND HEBER J. HACKEMBRUCH

9.1 Introduction	105
9.2 Neuroepidemiology in Latin America	107
9.3 Epilepsy	110
9.4 Multiple Sclerosis	111
9.5 Dementia Syndromes	117

9.6 Stroke	121
9.7 Headache and Migraine	123
9.8 Extrapyrmidal Disease and Parkinson's Diseases	124
9.9 ALS	124
9.10 Neuroinfectious Diseases	124
9.11 Neuroepidemiology Training and Education	125
9.12 Conclusions	125
References	125

## 10. Epidemiology of Neurological Disorders in Sub-Saharan Africa

129

REDDA TEKLE-HAIMANOT, EDGARD B. NGOUNGOU, AND DAWIT KIBRU

10.1 Introduction	129
10.2 Infections of the Nervous System	130
10.3 Tropical Spastic Paraparesis	131
10.4 Neurofluorosis	132
10.5 Konzo	132
10.6 Stroke	132
10.7 Epilepsy	133
10.8 Nodding Syndrome	135
10.9 Lathyrism	136
10.10 Dementia	136
10.11 Peripheral Neuropathies	137
10.12 Parkinson's Disease	137
10.13 Conclusion	138
References	138

## PART IV

### FOCUS ON SPECIFIC NEUROLOGICAL SYNDROMES OR DISEASES IN TROPICAL AREAS

## 11. Epilepsy

145

CHARLES R. NEWTON AND PIERRE-MARIE PREUX

11.1 Introduction	145
11.2 Definitions	145
11.3 Classification	146
11.4 Epidemiology	147
11.5 The Causes of Epilepsy	149
11.6 Comorbidity	151
11.7 Mortality	151
11.8 Sociocultural Aspects	151
11.9 Treatment	152
11.10 Conclusion	153
References	153

## 12. Dementia

155

MAËLENN GUERCHET AND MARTIN PRINCE

12.1 Background	155
12.2 Prevalence	158

12.3 Incidence	160	17. Neuropsychiatric Disorders and Addictions	221
12.4 Mortality	162	JEAN-PIERRE CLÉMENT AND PHILIPPE NUBUKPO	
12.5 Trends	163	17.1 Introduction	221
References	164	17.2 Psychiatry and Mental Health in SSA	221
		17.3 Addictions in SSA	225
		17.4 Conclusion	229
		References	230
		Further Reading	231
13. Other Neurocognitive Disorders in Tropical Health (Amyotrophic Lateral Sclerosis and Parkinson's Disease)	167		
BENOÎT MARIN, PHILIPPE COURATIER, ANNIE LANNUZEL, AND GIANCARLO LOGROSCINO		18. Neurological Syndromes or Diseases Caused by Parasites in Tropical Areas	233
13.1 Introduction	167	FRANCISCO J. CAROD-ARTAL, HECTOR H. GARCIA, ANDREA S. WINKLER, AND DANIEL AJZENBERG	
13.2 Clinical Features of ALS	168	18.1 Introduction	233
13.3 Clinical Features of Parkinsonian Disorders	169	18.2 Cysticercosis	234
13.4 Epidemiology of ALS	170	18.3 American Trypanosomiasis	235
13.5 Epidemiology of PD	175	18.4 African Trypanosomiasis	236
13.6 Conclusion	178	18.5 Malaria	237
References	178	18.6 Schistosomiasis	239
		18.7 Toxoplasmosis	239
14. Vascular Disorders	185	18.8 Gnathostomiasis	240
THIERRY ADOUKONOU AND PHILIPPE LACROIX		18.9 Angiostrongyliasis	240
14.1 Introduction	185	18.10 Nodding Syndrome and Onchocerciasis	241
14.2 Burden of Stroke in SSA	185	18.11 Neurologic Infections by Free-Living Amebae	241
14.3 Risk Factors	190	18.12 Future Directions	243
14.4 The Gaps	191	References	243
References	192		
		19. Bacterial Diseases of the Nervous System	247
15. Neuromuscular Disorders in Tropical Areas	195	JEAN-FRANÇOIS FAUCHER AND MARIE-CÉCILE PLOY	
STÉPHANE MATHIS, LAURENT MAGY, AND JEAN-MICHEL VALLAT		19.1 Introduction	247
15.1 Introduction	195	19.2 BM/Encephalitis/Cerebral Abscess (Mycobacteria Excluded)	247
15.2 Infectious NMDs	196	19.3 Mycobacterial Infections	253
15.3 Malnutrition and Micronutrient Deficiencies	201	19.4 Other Bacterial Infections Involving the CNS	257
15.4 Toxic Causes	202	References	261
15.5 Other Acquired NMDs	206		
15.6 Hereditary NMDs	207	20. Viral Diseases	269
15.7 Idiopathic Neuropathies	208	FRANÇOIS DENIS AND SÉBASTIEN HANTZ	
Abbreviations	208	20.1 Introduction	270
References	208	20.2 Herpes Simplex 1 and 2	270
		20.3 Varicella Zoster Virus	274
16. Headaches in Tropical Areas	213	20.4 Cytomegalovirus	276
DISMAND HOUINATO AND ATHANASE MILLOGO		20.5 Epstein-Barr Virus	278
16.1 Introduction	213	20.6 Human Herpes Virus 6	279
16.2 Epidemiological Aspects	213	20.7 Enterovirus	279
16.3 Impact	215	20.8 Poliomyelitis	280
16.4 Clinical Aspects	215	20.9 Non-polio Enteroviruses	282
16.5 Conclusion	219		
References	219		

20.10 Paramyxoviruses (Measles, Mumps, and Nipah Viruses)	283	21. Other Diseases: Traumatic Brain Injuries, Tumors, and Multiple Sclerosis	297
20.11 Retrovirus	285	MOUHAMADOU DIAGANA AND MICHEL DUMAS	
20.12 Polyomavirus and Progressive Multifocal Leucoencephalopathy	288	21.1 Traumatic Brain Injuries	297
20.13 <i>Rhabdoviridae/Lyssavirus</i>	289	21.2 Tumors	298
20.14 Arboviruses	291	21.3 Multiple Sclerosis	300
20.15 Togaviridae/Rubivirus	293	References	302
20.16 Poxviruses/Smallpox and Vaccinia	294	<b>Glossary</b>	<b>305</b>
References	295	<b>Index</b>	<b>309</b>
Further Reading	296
