

Press release

The French “Nouvelle Aquitaine Region” Representation in Brussels hosts the AMITIE H2020-MSCA-RISE project kick-off meeting

After having won the European project H2020-MSCA-RISE [AMITIE](#)'s coordination, the University of Limoges is about to officially launch this 900 K€ research program focused on additive manufacturing of ceramics, for various sectors such as Energy, Information and Communication Technologies, Transports and Biomaterials. The first consortium meeting will be held in Brussels on April 12th, 2017 gathering representatives of 18 partners.

This event will take place in the [French “Nouvelle Aquitaine Region”](#) Representation. The first part of the day will be dedicated to the introduction of each involved team, their know-how and their resources. The afternoon will allow focusing on the main project topics and research actions with working sessions dedicated to the first achievements and secondments to be done during the next months.

Actually, AMITIE, *Additive Manufacturing Initiative for Transnational Innovation in Europe*, led by the [SPCTS](#) laboratory aims at encouraging transnational and intersectoral partnerships, as well as sharing of ideas and know-how for the benefit of scientific knowledge and innovation's development.

To meet this challenge over the 48 coming months, this project gathers the additional expertise of 18 partners (in a multidisciplinary consortium) among the most skilled and recognized teams in their fields:

- The [University of Limoges](#), via the [SPCTS](#) laboratory,
 - The [National Institute of Applied Sciences of Lyon](#) (FR),
 - The [University of Valenciennes Haut Cambresis](#) (FR),
 - The [University of Erlangen](#) (DE),
 - The [Federal Institute for Material Research and Testing](#) (DE),
 - The [University of Padova](#) (IT),
 - The [Polytechnical Institute of Torino](#) (IT),
 - The [Imperial College of London](#) (GB),
 - The [Polytechnical University of Catalonia](#) (ES),
 - The [Belgium Ceramic Research Center](#) (BE).
 - The [Mohammadia Engineering College](#) of Rabat in Morocco
- 7 industrial partners are also granted in the AMITIE project: [3DCeram](#) (FR), [Saint-Gobain](#) (FR), [Noraker](#) (FR), [Anthogyr](#) (FR), [Bosch](#) (DE), [HC Starck](#) (DE), [Desamanera](#) (IT)
